Melissa,

Thank you. I'll delete the 07/22/2007 SBC-11 sample from the database.

Jim,

The information submitted for SBC-11 is the information for MH-1 the time was 18:43 pm. whoever entered the information on the SBC-11 just didn't change it to military time. CK-2 is ok'd and ready to upload.

It looks like the same field parameter values were submitted for MH-1 for the same date, but at 18:43 PM. Please double check your notes to see if that is where the SBC-11 data came from.
