Received a Citizens complaint on June 3, 2009 @ 2:30pm. Coal being stockpiled at a residential location owned by Ralph Anderson.

Conducted an inspection/investigation on June 4, 2009. There is piles of lump coal (approximately 240 tons obtained from weigh slips) located at the residence of Ralph Anderson located adjacent to the Huntington Canyon road heading west of Hwy 10. The residence is located on the south side of Huntington Canyon road approximately 1 mile west of the Huntington cemetery.

Steve Demczack and Karl Houskeeper (Division of Oil, Gas and Mining) met with Mark Reynolds (Bear Canyon Mine) at the Bear Canyon Mine. Mark provided weigh slips which shows that Ralph Anderson (former employee) has purchased 242.39 tons of lump coal from Bear Canyon Mine. The point of sale for coal from the Bear Canyon Mine is at the weigh scales located at the mine. The Division has no rules that apply to individual usage and/or quantity purchased. The complainant was contacted by phone and e-mailed after the inspection and will be provided a copy of this inspection report. A copy of the weigh slips was provided to the complainant via e-mail and placed in the OGMCOAL e-mail account so that it can be archived.
