This legal description is for the permit area of the Bear Canyon Mines. The Permittee is authorized to conduct coal mining and reclamation operations connected with mining on the foregoing described property subject to the conditions of the leases, the approved mining plan, including all conditions and all other applicable conditions, laws and regulations.

Sec. 3 COMPLIANCE - The Permittee will comply with the terms and conditions of the permit, all applicable performance standards and requirements of the State Program.

Sec. 4 PERMIT TERM - This permit becomes effective on November 2, 2010 and expires on November 2, 2015.

Sec. 5 ASSIGNMENT OF PERMIT RIGHTS - The permit rights may not be transferred, assigned or sold without the approval of the Director, DOGM. Transfer, assignment or sale of permit rights must be done in accordance with applicable regulations, including but not limited to 30 CFR 740.13 {e} and R645-303.

Sec. 6 RIGHT OF ENTRY - The Permittee shall allow the authorized representative of the DOGM, including but not limited to inspectors, and representatives of the OSMRE, without advance notice or a search warrant, upon presentation of appropriate credentials, and without delay to:

- (a) Have the rights of entry provided for in 30 CFR 840.12, R645-400-110, 30 CFR 842.13 and R645-400-220;

- (b) Be accompanied by private persons for the purpose of conducting an inspection in accordance with R645-400-210 and 30 CFR 842, when the inspection is in response to an alleged violation reported to the Division by the private person.

Sec. 7 SCOPE OF OPERATIONS - The Permittee shall conduct underground coal mining activities only on those lands specifically designated as within the permit area on the maps submitted in the approved plan and approved for the term of the permit and which are subject to the performance bond.

Sec. 8 ENVIRONMENTAL IMPACTS - The Permittee shall minimize any adverse impact to the environment or public health and safety through but not limited to:

- (a) Any accelerated monitoring to determine the nature and extent of noncompliance and the results of the noncompliance;
- (b) Immediate implementation of measures necessary to comply; and
- (c) Warning, as soon as possible after learning of such noncompliance, any person whose health and safety is in imminent danger due to the noncompliance.

Sec. 9 DISPOSAL OF POLLUTANTS - The Permittee shall dispose of solids, sludge, filter backwash or pollutants in the course of treatment or control of waters or emissions to the air in the manner required by the approved Utah State Program and the Federal Lands Program which prevents violation of any applicable state or federal law.

Sec. 10 CONDUCT OF OPERATIONS - The Permittee shall conduct its operations:

- (a) In accordance with the terms of the permit to prevent significant, imminent environmental harm to the health and safety of the public; and
- (b) Utilizing methods specified as conditions of the permit by DOGM in approving alternative methods of compliance with the performance standards of the Act, the approved Utah State Program and the Federal Lands Program.

Sec. 11 EXISTING STRUCTURES - As applicable, the Permittee will comply with R645-301 and R645-302 for compliance, modification, or abandonment of existing structures.

Sec. 12 RECLAMATION FEE PAYMENTS - The operator shall pay all reclamation fees required by 30 CFR Part 870 for coal produced under the permit, for sale, transfer or use.

Sec. 13 AUTHORIZED AGENT - The Permittee shall provide the names, addresses and

telephone numbers of persons responsible for operations under the permit to whom notices and orders are to be delivered.

Sec. 14 COMPLIANCE WITH OTHER LAWS - The Permittee shall comply with the provisions of the Water Pollution Control Act (33 USC 1151 et seq), and the Clean Air Act (42 USC 7401 et seq), UCA 26-11-1 et seq, and UCA 26-13-1 et seq.

Sec. 15 PERMIT RENEWAL - Upon expiration, this permit may be renewed for areas within the boundaries of the existing permit in accordance with the Act, the approved Utah State Program and the Federal Lands Program.

Sec. 16 CULTURAL RESOURCES - If during the course of mining operations, previously unidentified cultural resources are discovered, the Permittee shall ensure that the site(s) is not disturbed and shall notify the DOGM. DOGM, after coordination with OSMRE, shall inform the Permittee of necessary actions required. The Permittee shall implement the mitigation measures required by DOGM within the time frame specified by DOGM.

Sec. 17 APPEALS - The Permittee shall have the right to appeal as provided for under R645-300.

Sec. 18 SPECIAL CONDITIONS - There are special conditions associated with this permitting action, as described in Attachment A.

The above conditions (Secs. 1-18) are also imposed upon the Permittee's agents and employees. The failure or refusal of any of these persons to comply with these conditions shall be deemed a failure of the Permittee to comply with the terms of this permit and the lease. The Permittee shall require his agents, contractors and subcontractors involved in activities concerning this permit to include these conditions in the contracts between and among them. These conditions may be revised or amended, in writing, by the mutual consent of DOGM and the Permittee at any time to adjust to changed conditions or to correct an oversight. DOGM may amend these conditions at any time without the consent of the Permittee in order to make them consistent with any Federal or State statutes and any regulations.

THE STATE OF UTAH

Date: 11/2/2010

I certify that I have read, understand and accept the requirements of this permit and any special conditions attached.

Kenneth Quohla
Bankruptcy Trustee for C.W. Mining Co. dba
Authorized Representative of the Permittee Cb-Op Mining Company

Date: 11/5/2010

ATTACHMENT A Special Conditions

1. Co-Op Mining Company will submit surface and ground water quality data for the Bear Canyon Mine on a quarterly basis for the Bear Canyon Mine in an electronic format through the Electronic Data Input web site, <http://hlunix.hl.state.ut.us/cgi-bin/appx-ogm.cgi> throughout the life of the permit.
2. This permit becomes effective on November 2, 2010. The end of the public comment period is November 29, 2010. The permittee will comply with the requirements of any order of an informal conference as a result of this permit renewal.
3. Co-Op Mining Company will comply with the terms of the payment assurance letter dated November 2, 2010 and supplied to the Division of Oil, Gas & Mining by Kenneth A. Rushton, Trustee.
4. Co-Op Mining Company will comply with the Special Forest Service Stipulations regarding compliance with the National Historic Preservation Act.

The following stipulations will apply to both NFS and private lands associated with the Bear Canyon Lease Expansion project area. The subsidence monitoring and reporting requirements for the NFS lands will also include appropriate notification to the Division.

For private lands that involve subsidence related impacts to cultural and historic resources, the Division will be the appropriate agency for initial contact and coordination, in place of the Forest Service as outlined below for subsidence related impacts to cultural and historic resources on NFS lands:

Forest Service NHPA Stipulations

1. **Monitoring of Subsidence.** CO-OP will conduct annual subsidence monitoring of National Forest System Lands (NFS) throughout the life of the mine. Should subsidence occur, CO-OP will provide an accurate map of the entire subsidence area. CO-OP will ensure that a qualified archaeologist will then examine the location of the subsidence area relative to previous inventories and known sites within fifteen (15) working days of the identification of the subsidence. Depending on the location of subsidence in relation to previous inventories and known sites, the following stipulations will apply (to each subsidence event):
 - a. **Previously Inventoried and No Sites.** If subsidence occurs on NFS lands within an area that has undergone previous archaeological inventory, and no sites are present within the area of subsidence, or no sites eligible to the National Register of Historic Places are present in the area of subsidence, no further work will need to be done. CO-OP or their consulting archaeologist will

notify the U.S. Forest Service (USFS) regarding this determination within fifteen (15) working days of making the determination. The USFS will provide the information to SHPO.

- b. **Previously Inventoried and Known Sites.** If subsidence occurs on NFS lands within an area that has undergone previous archaeological inventory, and known archaeological sites, previously determined eligible to the National Register of Historic Places are present in the subsidence area, CO-OP will have a qualified archaeologist examine the effects of subsidence upon the site(s) in question within fifteen (15) working days of making this determination. The archaeologist will provide a report, for review by the USFS in a timely manner that makes recommendations regarding whether or not the effects of subsidence are adverse. The USFS will make a final determination of the effects of subsidence. The USFS will then consult with the SHPO regarding the effects determination. If the effect is determined to be adverse, procedures following

36CFR800.6 and the stipulations below regarding evaluation and archaeological treatment will be followed.

- c. **Not Previously Inventoried.** If subsidence occurs on NFS lands within an area that has not undergone previous archaeological inventory, CO-OP will have a qualified archaeologist conduct a field examination of the subsidence area within fifteen (15) working days of making this determination (in consultation with the USFS and SHPO). Depending on the presence or absence of sites in the subsidence area, the following stipulations will apply (to each subsidence event):
- i. **No Sites.** If no sites are present within the area of subsidence, the archaeologist will make a recommendation of No Historic Properties Affected to the USFS in a timely manner. The USFS will make a final determination of the effects of subsidence. The USFS will then consult with the SHPO regarding the effects determination per 36CFR800.4(c).
 - ii. **Newly Discovered Sites.** If a site or sites are found within the area of subsidence, the archaeologist will provide a report and make recommendations of eligibility and effect to the USFS (per 36CFR800.4(c)(2) and 36CFR800.5) regarding the site(s) and subsidence effects on the site(s) in a timely manner. The USFS will make a final determination of eligibility of the site(s) and the effects of subsidence on the site(s). The USFS will then consult with the SHPO regarding the effects determination. If the effect to any site eligible to the National Register of Historic Places is determined to be adverse, procedures following 36CFR800.6 and the stipulations below regarding evaluation and archaeological treatment will be followed.
- d. **Time Lines.** In all cases SHPO and the Tribes will be afforded thirty (30) calendar days following receipt of reports/consultation requests to respond.
- e. **Conducting Consultation.** The USFS will consult with tribes, SHPO, and the Utah Division of Oil, Gas and Mining (UDOGM) during this process at a level appropriate to the nature of the resources (if any) and effects to the resources (if any) taking into account comments and concerns received previously from the tribes and consulting parties.

2. **Discoveries in Area of Potential Effect (APE).** Should unanticipated cultural or historic resources be observed within the APE during, but not limited to, CO-OP's quarterly ground-water monitoring, annual subsidence monitoring, OGM's field visits, construction of any mine-related structures or features, future archeological surveys conducted within the permit area, or otherwise brought to USFS attention, CO-OP will halt any work within the vicinity of the discovery that could harm the discovery and notify the USFS

within

24 hours of the discovery. CO-OP will also protect the site. The USFS will notify SHPO of said resources within seven (7) days of resource discovery. If determined appropriate, the USFS will require CO-OP to record the discovery, conduct additional evaluations as necessary, and provide correlating reports. The USFS will make determinations of eligibility and effect regarding the discovery.

- a. **No Historic Properties Affected or No Adverse Effects.** If a determination of No Historic Properties Affected or No Adverse Effects is made, the USFS will consult with the SHPO regarding the determination following 36CFR800.4-5.
 - b. **Adverse or Potentially Adverse.** If effects to a site that is determined via this process to be eligible to the National Register of Historic Places are determined adverse or potentially adverse, the USFS, CO-OP and SHPO will reconvene to recommend and draft appropriate measures to avoid, minimize, or mitigate adverse effects.
 - c. **Time Lines.** In all cases SHPO and the Tribes will be afforded thirty (30) calendar days following receipt of reports/consultation requests to respond.
 - d. **Conducting Consultation.** The USFS will consult with tribes, SHPO, and UDOGM during this process at a level appropriate to the nature of the resources (if any) and effects to the resources (if any) taking into account comments and concerns received previously from the tribes and consulting parties.
3. **Funding of Work.** CO-OP will fund and implement any future and all cultural or historic resources fieldwork, analysis, and monitoring, required under these stipulations.
