Hi Linda,

I have not yet dealt with any corporate person with this new company. It looks like you are working with Paul - thank you! I have to write a memo for the O&C portion of the Transfer review...it seems to me that once the discrepancies are addressed with Paul then I can consider this portion of the review complete and approvable. I will wait to hear final word from you that everything checks out okay.

Thank you!  
Angela

Hi Angela,

I figured it out after the first company. Is Paul Hill the corporate person you are working with? I need to give him a call to resolve the discrepancies.

Hi Linda,

Suzanne Steab actually did an initial review of this package for me. The pencil updates are the dates found in AVS that don't match what was submitted...so it is basically a list of discrepancies in the dates.

Thanks!

Hi Angela,

I see that you have made updates in pencil. One of the pencil updates indicates Mark Zand Chairman of the Board ended 3/1/07 but is not indicated in the information from the company. Can you please send me the document you used to make that pencil update and any other pencil update that you would like me to make? Thanks.

I believe these are your companies. I will take care of the password reset for her.

Hi Amy,

Attached is a transfer application we received to transfer the Bear Canyon Mine permit (ACT015025) from C.W. Mining Company to Castle Valley Mining, LLC. Suzanne Steab did a quick review of the new O&C information - but noticed that the entities are locked or not in AVS. I have attached the information for your review since it appears this mine is now owned by an Interstate company. Once you have had a chance to review this information - please let me know and I can notify the operator of any additional discrepancies.

Also, I have locked myself out of AVS by attempting my password one too many times! Are you able to re-set my password or do you know who I should contact?

Thank you for your help!
