Hi Cathy,

In addition to the Plate 7-4 needing certification, there is another issue that we discovered need correcting before we can incorporate the amendment in the existing MRP:

According to the C2 form you submitted with your amendment, you have asked us to replace Appendix 7J with the "2010 Characterization of Groundwater and Surface Water". This 2010 document will replace what is currently in Appendix 7J, which is the 2001 PHC report prepared by Mayo and Associates. It appears that you submitted a copy of the 2001 Mayo Report and that is to be included along with a 1993 prepared by Earthfax and a 2007 report from Mayo that is also to be included in Appendix 7N.

Your revised TOC page (7-v) lists Appendix N as "Revised Hydrologic Evaluation of Bear Canyon Mine Permit and Proposed Expansion Areas". This is the title of a 1993 report prepared by EarthFax. The concern I have is these 3 reports are to go into Appendix 7N but they are not listed in the TOC. If somebody needs to reference any of these 3 reports in the future, they will not be listed in the TOC but rather buried in an appendix. I think the solution here is to list each of these reports out in the TOC page 7-v that you submitted. When you send us the revised plates, could you also send us a revised copy of the TOC page listing each of these reports out?

Hopefully this email spells what we are asking for clearly. If not, please feel free to call me with questions.

Sincerely,

April
