Daron,

Attached is receipt of AML fees payment. The wire transfer occurred yesterday.

We are drafting a letter authorizing Hiawatha to have access the portions of the permit area to comply with reclamations obligations.

Thanks,

Corey

Corey,

I received the voice mail you left last Friday. From it I understand you will make sure the outstanding AML fee at the Bear Canyon mine will be paid by March 25th. I also understand you will be issuing a letter that authorizes Hiawatha Coal Company to complete the reclamation work on the South Fork and Middle fork areas on land currently controlled by the ANR Operating agreement. Thank you for your help on this. We will look forward to hearing from you.
