2. Signs and Markers

The mine identification sign is in place at a point of contact of public access into the permit area.

4.a Hydrologic Balance: Diversions

Diversions are snow covered throughout the mine site. Several access points into diversions needs to be opened as a result of snow removal activities.

18. Support Facilities, Utility Installations

Construction work is taking place on the scales located at the scale hose. The scales have been removed and are being replaced by new scales. Bedding was being placed for the scales during the inspection.
