To whom it may concern,

Castle Valley Mining LLC located in Huntington, Utah would like to appeal citation # 10096 issued on 05/24/2012. Castle Valley Mining feels that this needs further review. The DOGM Pipeline system seems to have some flaws with some of the inputs. Such as "N/A" When entered into the system, this does not allow the DOGM Representative to see all other inputs causing the rep to think the correct inputs are missing. This results in this violation.

The second part of the violation consists of sampling the wrong month in the 4th Quarter 2011. Castle Valley mining did the 4th quarter sampling in December rather than October. Castle Valley was under the impression that the sampling timeline be complete within the quarter.

Any questions please feel free to contact me (435) 687 5454

Sincerely,

Jaren Jorgensen
Engineer Tech
