Hi Suzanne,

Attached is weekly water monitoring data for Bear Canyon. Please add this data to file.

Thanks,
Keenan Storrar

Keenan,

I sent the wrong weekly monitoring file. Attached is the correct one. Any questions let me know.

Thanks,

Jaren Jorgensen

Hi Keenan,

Come on down any time. Just let me know I am in an out a lot

1. Yes I will get you the weekly data.
2. Yes
3. Mine #4

4. Not that I know of

Thanks,

Jaren Jorgensen

Subject: Water monitoring at Bear Canyon questions

Hi Jaren,

I'm the new hydrologist within DOGM's Coal Program who has taken over for Ken Hoffman. I'd like to get down there sometime to get a better idea on the hydrology for the Bear Canyon mine.

I have a couple questions about water monitoring at your mine that I hope you can clear up for me.

- 1) It looks like you've started monitoring SBC-18 again, but the database shows SBC-18 was monitored on June 12, 2014. It looks like weekly monitoring for this site begins one month prior to mining, monthly for six months, and then quarterly. Since this point was monitored in June can you send the weekly and monthly monitoring data to me?
- 2) Is there active mining in any of Lease U-'s?
- 3) Is there active mining in the Morhland area and/or in Mine #4?
- 4) Is there active mining in any of the Township range sections that turn water monitoring sites on or off?

Thanks,
Keenan Storrar
