Jaren,

Thanks for clarifying when the NOV was received. I will go ahead and extend NOV 19151 until June 13th as requested. On NOV 21171, I am hesitant to extend as of yet. I think it would be prudent to wait until after the Assessment Conference scheduled for June 3rd before modifying the time on this one. Thanks. Daron

Daron,

I did not receive the notices until April 13th. The notices went to Grand Junction. So I was planning on June 13th as the abatement for 19151. And I need to extend NOV 21171 30 days. So I would be planning on July 13th for abatement for 21171.

We have been working diligently on the coal clean up. The vac truck is working very well.

The inlet to pond D has not started yet just waiting for that memorial weekend to dig the channel. We were not planning on it being complete that weekend but finishing it the following weekend

Thanks,

Jaren Jorgensen

Jaren,

I will allow an extension to June 1, 2016 for NOV 19151. This should give you ample time

during the Memorial Day weekend to get the pond inlets fixed up. A copy of the NOV modification will be coming to you in the mail. Thanks. Daron
