Dear Mr. Braxton,

Please find enclosed for your review 14 revised copies of our July 1984 Tract 2 Permit submittal. We have rewritten the entire document on the Division's suggestion in the ICR, we believe this will cause less confusion in the future. In response to recent discussions with your staff we have deleted material that is not relevant to this permit. All material relevant to Tract 1 permit is not included in this permit. We are presently trying to organize the Tract 1 permit and hope to have it to you in a short time.

Before closing I would like to stress the importance of a timely review. If there is anything I can do to expedite the review please feel free to contact me. I am looking forward to working with you and your people.

Thank you for your time and consideration.

Sincerely yours,

Andrew C. King
