Re: NOV 86-414, Guard Rail
EG-41-1-4, #2 of 4

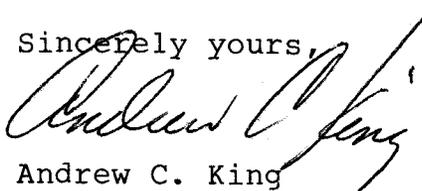

Dear Mr. Lof,

Genwal Coal Company would like to modify their permit and remove the guard rail above the sediment pond as shown in their plans. I have talked with Mr. Brent Barney of the U.S. Forest Service in Price and he related to me that the Forest Service would not have any objections in removing the guard rail above the sediment pond at this time. I then asked him to write you a letter relaying that information to you, at that time he stated you would need to initiate a letter to the Forest Service requesting the modification.

These modifications have been submitted in the recent Mid-Term review for the Tract 1 permit. I would like to modify the existing plan to meet the Mid-Term revisions and take care of future plan modifications.

If I can be of any further assistance please feel free to call me at 637-7383. Thank you.

Sincerely yours,

Andrew C. King
