FEB 12 1987

Dear Mr. King:

Enclosed is the Crandall Canyon mine permit with conditions incorporating the Tract 2 area into the permit area. This revised permit became effective on February 12, 1987. The Office of Surface Mining Reclamation and Enforcement (OSMRE) has accepted the bond in the amount of \$136,729.00 payable to both the State of Utah and the United States of America.

Please read the permit to be sure you understand the requirements and conditions. Pursuant to 30 CFR 775.11, Genwal Coal Company will have 30 days from the date of notice of the permit decision to appeal OSMRE's decision on the application.

Enclosed is a copy of the newspaper notice we are sending to the Emery County Progress, Emery County, Utah to be published as soon as possible. When published, this notice will constitute official notification of our action. Any person with an interest which is or may be adversely affected may request a hearing on the reasons for the final decision within 30 days from the date that notice is published.

The Assistant Secretary for Land and Minerals Management approved the mining plan modification on February 11, 1987. The enclosed permit has been determined to be consistent with this plan.

If you have any questions, please feel free to call either me or Richard Holbrook at (303) 844-2451.

Sincerely,

Allen D. Klein, Acting Chief
Federal Programs Division
