**DIVISION OF
OIL, GAS & MINING**

Dear Jim:

Genwal Coal Company has requested that I respond to the Division concerning the design of the energy dissipation basin previously designed on Reclamation Diversion RD-4 at the Crandall Canyon Mine. The Division had expressed a concern that the riprap should be larger for the basin. Although it is my professional opinion that the riprap as originally designed is adequate, the size has been increased to conform with the Division request.

Fourteen copies of revised calculations and drawings are attached (pages 27s2 through 27s8). These sheets are to replace pages 27s2 through 27s6 found in Appendix 7-7 of the existing PAP.

Thank you for your assistance.

Sincerely,

Richard B. White
