FILE COPY

Dear Andy:

We received a copy of your November 18, 1987, PAP Amendment Revision (Plates 14A, Band C), regarding the proposed onsite coal processing and truck loading facility from UDOGM on November 23, 1987. We are presently reviewing the amendment for consent to approval.

On August 21, 1987, UDOGM approved the PAP Amendment for the subject facility conditional upon appropriate bonding and resolution of Forest Service concerns outlined in our July 27, 1987, letter. To date we have not received a response to any of the concerns.

In your November 18, 1987, revision, you stated that you would follow the submittal with copies of Plate 3-1 showing the plan layout. The layout must demonstrate that loading of the trucks will not interfere with through traffic.

Please respond to the concerns identified in our July 27, 1987, letter so we can get them resolved.

Sincerely,

/s/ William H. Boley
