CERTIFIED RETURN RECEIPT REQUESTED
(P402 459 484)

Mr. Andrew C. King
Permitting Coordinator
Genwal Coal Company
P.O. Box 1201
Huntington, Utah 84528

Dear Mr. King:

Re: Approval of MRP Amendment, Request to Modify Previously Approved
Incidental Boundary Change (10 acres), Crandall Canyon Mine,
ACT/015/032-(F), Folder #4, Emery County, Utah

The Division has completed the review of your November 25, 1986 request to modify the existing approved Incidental Boundary Change (IBC). Your submittal requests approval to modify the configuration of the ten (10) acre IBC to conform with underground mining constraints. The proposed change will not increase the amount of area to be mined under the approved IBC. The change will conform to the BLM's approval for the Tract 2 permit. The proposed changes are located entirely underground and no significant impacts to surface resources are expected.

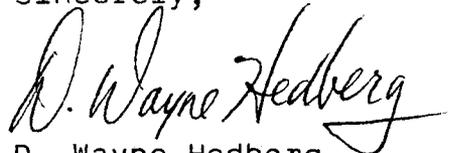

The Division received verbal concurrence from the Bureau of Land Management (Mr. Allen Vance, Price Area Office), on November 17, 1986 to approve this amendment change. The Division received written concurrence to approve the change from the USFS (Manti-LaSal) on December 22, 1986. The proposal is consistent with pertinent regulations and adequate justification has been provided for the Division to grant its approval.

As a final condition to this approval, please provide the Division with ten (10) additional copies of the approved plans (with revised underground mine sequence map) which are formatted with appropriate page and plate numbers to allow direct insertion into the approved MRP's on file. If possible, please provide these copies by January 25, 1986.
