Dear Ms. Linner:

We have received and reviewed Genwal Coal Company's five-year permit renewal amendments and review responses for the Crandall Canyon Mine ACT/015/032. These submittals do not affect the resource recovery and protection plan (R2P2). Hence, our recommendations for approval still stand. We urge quick approval so logical development of the new lease area (U-54762) can begin without delays in production.

If you need further information, please contact us or Stephen Falk at our San Rafael Resource Area Office in Price, Utah.

Sincerely yours,

  
District Manager
