Mr. William C. Wollen  
Vice President  
Genwal Coal Company  
P. O. Box 1201  
Huntington, Utah 84528

Dear Mr. Wollen:

This is in followup to our letter to you dated February 12.

Mr. Wilcox discussed the situation with Mr. William Boley of the Manti-LaSal National Forest on February 17 and pointed out the need for Forest personnel to work with you in developing alternatives for providing the required access for public use as requested by the Forest Supervisor.

Because of the site specific conditions, we believe it is best for resolution of this matter to be accomplished at the ground level.

Sincerely,

L. KENT MAYS, JR.  
Deputy Regional Forester
