RE: MRP Stipulation Extension
 for Genwal Coal Company

Dear Lowell:

At this time Genwal Coal Company would formally request of you and the Division an extension date of December 1, 1989, for submission of stipulations due November 17, 1989.

This extension is being requested because the new base maps were just received by our consultant. As you are aware, most of the stipulations and amendments address inconsistencies between the plates and test in our permit application. The terms that will be ready for December 1, 1989, will be the maps, design and calculations associated with the following:

- AOC requirements and mass balance
- Revised reclamation estimate
- Modification to drawings
- As-builts on culverts, spillways, and diversions

Due diligence on project work will be maintained to ensure delivery of the desired documents on or before the requested extension date.

Should you have any questions or need additional information, please feel free to contact me at 687-9813.

Sincerely,

GENVAL COAL COMPANY

 Allen P. Childs
 Mine Manager
