

GENWAL COAL COMPANY, INC.
CRANDALL CANYON MINE
SUBSIDENCE STATUS 1988

Genwal Coal Company contracted through Olympus Aerial Survey in September of 1988 to fly the Crandall Canyon Mine area. On file at the mine office are photographs of the 1988 flight. We are still awaiting the pinpoint subsidence maps from Olympus Aerial and as of April, 1989, we have commissioned them to generate a topol of the Crandall Canyon Mine.
