RE: Amendment to Surface Facilities

Dear Mr. Braxton:

We are requesting at this time an amendment to our surface facility. We request your consideration on the following area. We would like to remove the large rocks along the roadway leading from the substation up to the mine portals and replace them with a solid concrete barrier. Replacement of this embankment will add to the drainage of the road surface, reduce erosion and add to the aesthetic value of the mine property. This barrier will also protect the extemporaneously reclaimed area from possible erosion and deterioration. Please refer to the attached map for exact location and area involved.

Please feel free to contact me at (801) 687-9813 if any additional information or assistance is needed.

Sincerely,

GENWAL COAL COMPANY
