RE: Amendment to Surface Facilities

Dear Mr. Braxton:

We are requesting at this time an amendment to our surface facility. We request your consideration on the following area. We would like to remove the overhead power lines and utility poles that currently follow the roadway from the generator to the mine portals. With the installation of the new substation these poles and lines will become unnecessary. Upon removal of the power poles the disturbed area will be reclaimed and reseeded. Removal of these items will be one step closer to reclamation of the mine site and will add to the natural scenery. Please refer to the attached map for exact location and area involved.

Please feel free to contact me at (801) 687-9813 if any additional information or assistance is needed.

Sincerely,

GENWAL COAL COMPANY

Randal J. Ralphs  
Surface Foreman
