RE: Permit # ACT 015-032
Genwal Coal Company
As-built Drawings for Surface Facilities

Dear Mr. Haddock:

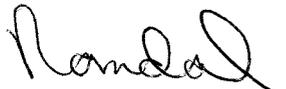

This letter is a follow-up to our telephone conversation of September 28, 1990, and your approval letter of September 18, 1990. This approval states that Genwal Coal Company submit as-built surface facility drawings to the Division by October 19, 1990.

RE - Power Pole Removal + Concrete Road Barrier

As per our conversation, Genwal has requested an extension in submitting 14 copies of the updated as-built surface facilities drawings until the on-going construction at the mine site has been completed. If the Division can grant this extension until the requested and approved changes have been made at the mine site, an updated map will be generated reflecting all as-built structures.

Should you have any questions or need additional information, please contact me at 687-9813.

Sincerely,

Randal J. Ralphs
Surface Foreman
