RECEIVED

MAY 24 1991

RE: Permit # ACT 015-032
Genwal Coal Company
Haul Road Expansion Amendment (91-8)
Crandall Canyon Mine

DIVISION OF
OIL GAS & MINING

Dear Mr. Braxton:

Genwal Coal Company submits to you and the Division the enclosed haul road expansion, surface facility expansion, and haul road project amendment.

The haul road expansion and surface facilities expansion are projects located on Genwal Coal Company's permit area, and the haul road asphaltting project is off permit area. The asphaltting is a requirement of the U.S. Forest Service road use permit (enclosed).

We would advise the Division of the proposed haul road project and request review and approval for the permit area projects (road expansion next to the sediment pond and surface facilities).

The haul road is scheduled for construction June 15 - July 15, 1991, and Genwal Coal Company would request that the projects within the permit area be constructed during this time frame. Genwal Coal Company will commit to provide the Division with as-built drawings as soon as projects are completed.

This request is submitted to the Division in the form of an amendment to allow insertion into the mine plan upon Division approval.

Should you have any questions or need additional information, please feel free to contact me at 687-9813.

Sincerely,

GENWAL COAL COMPANY

Allen P. Childs
Mine Manager/Vice Pres.
