Moab District
P.O. Box 970
Moab, Utah 84532

AUG 16 1991

Mr. R. Jay Marshall
Chief Engineer
Genwal Coal Company
P.O. Box 1201
Huntington, Utah 84528

Dear Mr. Marshall:

Genwal has requested a modification to the drilling plan for coal exploration license UTU-65418 which expires on August 24, 1991. The modification consists of moving drill hole number 5 approximately 3,500 feet to the southwest.

Our office has received consent from the Forest Service for the relocation of this hole provided that operations do not begin before August 20, 1991. Therefore, the modification is approved as proposed subject to all the existing terms of the exploration license. If drilling activity continues beyond midnight of August 24, 1991, Genwal may face trespass action in accordance with the regulations at 43 CFR 9239.5-3(f).

A copy of the approved modification is enclosed. If you have any questions, contact Tom Rasmussen (637-4584) at the Price Coal Office.

Sincerely,

/S/ WILLIAM C. STRINGER

Assistant District Manager
Mineral Resources
