Dear Mr. Childs:

Re: Final Approval, Pad Removal/Oil Storage and Substation Amendments, Genwal Coal Company, Crandall Canyon Mine, ACT/015/032-90C and 90I, Folder #2, Emery County, Utah

The Division received the required copies of Chapters 3 and 7 on February 1, 1991. These chapters included information on two amendments which previously received conditional approval on October 12, 1990. The receipt of these copies consummates final approval of the above referenced amendments.

Any changes included in Chapters 3 and 7 which have not previously received approval will require Division review and approval. The Division will distribute the chapters to the appropriate agencies and allow for their comment as well.

Thank you for supplying this information. If you have any questions, please call Rick Summers, Senior Hydrologist, or myself.

Sincerely,

A handwritten signature in black ink that reads "Daron R. Haddock".
