RE: Supplemental Information on Blind Canyon Subsidence Plan, Genwal Coal
Company, Crandall Canyon Mine, ACT/015/032-93B, Folder #32, Emery County,
Utah

Dear Mr. Braxton:

We reviewed the supplemental information submitted by Genwal Coal Company in
regard to their proposal to second mine and subside Blind Canyon Creek on State
Coal Lease ML-21569 at the Crandall Canyon Mine.

Genwal Coal Company has agreed to:

- (1) participate in and fund a detailed study to be completed by Dr. Roy
Sidle, Forest Service Intermountain Research Station, to monitor the
impacts of subsidence on the watershed and drainage,
- (2) fund enhancements that would offset projected increases in sediment in
Blind Canyon Creek due to subsidence and result in a net reduction of
sediment contributions to Huntington Creek, and
- (3) mitigate unanticipated impacts to Blind Canyon Creek and the fishery
in Huntington Creek on adjacent National Forest System lands.

In consideration of the above provisions of the Mining and Reclamation Plan and
Genwal Coal Company's commitment to complete them in good faith, we hereby
agree not to object to the proposal on State lands under the Utah Coal Mining
Regulatory Program.
