March 17, 1993

Mr. R. Jay Marshall
Genwal Coal Company
P. O. Box 1201
Huntington, Utah 84528

Dear Mr. Marshall:

Re: Determination of Administrative Completeness, Permit Renewal Application, Genwal Coal Company, Crandall Canyon Mine, ACT/015/032, Folder #3, Emery County, Utah

The Division has conducted an Initial Completeness Review on the information received through March 17, 1993 for your application to renew the Crandall Canyon Mine permit. The information has been found to be adequate to determine the Permit Application Package (PAP) administratively complete.

A technical review of the plan will now be initiated. Technical deficiencies will be forwarded to you as individual reviews are completed. The Division will coordinate with other agencies and incorporate their comments into our review process. Issues raised will need to be resolved prior to permit issuance.

At this time you should publish a Notice of Application for a Mine Permit renewal as required by R645-300-121. A copy of the publication notice should be sent to the Division as soon as it is available. You should also insure that a copy of the complete application is on file at the Emery County courthouse. The Division will notify all other interested agencies and allow for their comment prior to making a final decision to approve or disapprove the permit application. You should submit 12 copies of your plan for distribution to other agencies.

Please call if you have any questions.

Sincerely,

A handwritten signature in black ink that reads "Daron R. Haddock".

Daron R. Haddock
Permit Supervisor
