RE: Permit #ACT 015-032  
Genwal Coal Company  
Review of Proposed changes as indicated in DOGM letter dated  
January 27, 1994.

Dear Mr. Haddock:

As requested in the first part of your letter dated January 27, 1994, a separate submittal was sent to DOGM regarding the abatement of NOV N93-43-1-1. That submittal included a new page 28 for Appendix 7-7 and a new page 17 for Appendix 7-11 of the approved Mine and Reclamation Plan.

Those items and concerns within the second part of your letter are addressed in this submittal.

Please find enclosed fourteen (14) copies of the following information. It is listed in the order as stated on the your letter dated January 27, 1994.

- 1) Plate 7-5A has been revised to reflect a legend, north arrow, elevation labels, and a certification statement.  
  
Plate 7-5B has been revised to reflect only those cross sections relative to existing diversions and culverts. All other cross sections have been deleted from the drawing.
- 2) Appendix 7-7 will now reflect only those diversions and culverts that are proposed or will be constructed in the future. Appendix 7-11 will now reflect those calculations and designs for existing diversions and culverts.
- 3) Watershed areas have now been identified on a revised Plate 7-3 to agree with those watershed areas reflected on Plate 7-5C.
- 4) Slope and length of culverts have been incorporated within Appendix 7-11.
- 5) Flow depth and velocity of DD-7 have been incorporated in Appendix 7-11.

Should you have any questions or need additional information,  
please contact me at 687-9813.

Sincerely,

A handwritten signature in cursive script, appearing to read "Larry W. Johnson", with a long horizontal flourish extending to the right.
