RE: Permit # ACT 015-032
 Genwal Coal Company
 Affidavit of Publication

Dear Mr. Braxton:

In response to letter dated 27 May 1994 the loadout being considered for Mohrland will be utilized for coal loading only. No coal preparation activities are contemplated at this time. Therefore, the Mohrland facility will not be subject to the Utah Coal Mining Regulatory Program.

We understand that if coal preparation processing which may change the Physical or Chemical characteristics of the coal, is planned that the site would fall under R645-100 and R645-301-260 through R645-302-264.900.

Should plans change and coal is to be processed at Mohrland Genwal would then submit a Mine and Reclamation Plan (MRP) for UDOGM review and approval.

Should you have any questions please call.

Sincerely;

R. Jay Marshall
