RE: Permit # ACT 015-032 #2  
Genwal Coal Company  
Proposed shotcrete of highwall on portal road

Copy DAM  
94 D

Dear Mr. Haddock:

Please find fourteen (14) copies of the revised page 5-33 of chapter 5 of Genwal's approved Mine and Reclamation Plan. This revision reflects the proposed shotcreting of the highwall above the portal road. This submittal is to be included with the package submitted on June 1, 1994, in which Plate 5-3, the Surface Facility Map, was submitted reflecting the proposed shotcreting of the above mentioned highwall.

It has been estimated at the time of reclamation, costs incurred to remove the shotcrete, wire, and PVC pipe will be no more than \$3,000. Therefore, the contingency and engineering costs built into the Reclamation Bond will more than cover the removal and disposal of the shotcrete and supporting materials.

Should you have any questions or need additional information, please contact me at 687-9813.

Sincerely,  
GENWAL COAL COMPANY

  
Larry W. Johnson  
Engineer
