Subject: Updated Perennial Stream designation and associated
buffer zone as defined by 1993 LBA #9 EA.

Dear Darron:

Enclosed please find 14 copies of plates 5-2 and 7-16 and supporting documentation which Genwal has revised to comply with the Price Forest Service requirements. The perennial stream has been shown as it was previously shown in pre-August 1994 submittals.

Hopefully, the addition of these changes will satisfy all of the previous questions and eliminate the need for stipulations associated with stream buffer zones. We appreciate your help in working through this permit modification.

If you have any questions, please call either Randy Gainer or myself at (801) 687-9813. Hopefully, the permit package can be submitted to OSM by the end of the workday on September 23, 1994.

Sincerely,

R. Jay Marshall
