Re: Midterm Review, Genwal Resources, Inc., Crandall Canyon Mine,
ACT/015/032, Folder #3, Emery County, Utah

Dear Mr. Gainer:

In accordance with R645-303-211 the Division is conducting a Midterm review of the Crandall Canyon Mine. Elements of the review will consist of the following items:

- A. Review of the Plan to ensure that the requirements of all permit conditions, Division Orders, notice of violation (NOV) abatement plans, and permittee-initiated mining and reclamation plans (MRP) changes approved subsequently to permit approval or renewal, (whichever is the most recent) are appropriately incorporated into the Plan document.
- B. Ensuring that the MRP has been updated to reflect changes in the Utah Coal Regulatory Program which have occurred subsequently to permit approval or renewal, (whichever is the most recent).
- C. Review of applicable portions of the permit to ensure that the MRP contains commitments for application of the best technology currently available (BTCA) to prevent additional contributions of suspended solids to stream flows outside of the permit area.
- D. Evaluating the reclamation bond to ensure that coverage adequately addresses permit changes approved subsequently to permit approval or renewal (whichever is the most recent), and to ensure that the bond amount is appropriately escalated in current-year dollars.

ACT/015/032
November 27, 1995

It is anticipated that the review will take approximately 45 days (i.e., January 12, 1996). Upon completion of the review, you will be notified of the findings. Please call if you have any questions.

Sincerely,

A handwritten signature in black ink that reads "Daron R. Haddock". The signature is written in a cursive style with a large initial "D" and "H".

Daron R. Haddock
Permit Supervisor
