Re: Stipulation on Approval of Crandall Canyon Culvert, Genwal Resources, Inc.,
Crandall Canyon Mine, ACT/015/032-97B, Folder #2, Emery County, Utah

On June 27, 1997, the Division approved the proposal to culvert Crandall Creek with the following stipulation:

Stipulation #1 R645-301-321, by August 27, 1997, Genwal Resources, Inc. will gather required productivity information and submit for incorporation into the permit application package.

On June 30, 1997, the Division received a proposal to expand the sediment pond and to change topsoil storage areas. Included in this proposal was information from the Natural Resources Conservation Service about productivity of areas proposed to be disturbed and a reference area. This information satisfies the requirements of the stipulation.
