Dear Gary:

Subject: Reconnaissance Inspection UT0024368

Bill Moellmer and I completed a Reconnaissance Inspection at Genwal Resources, Inc. on May 12, 2000. There were no permit violations observed on the premises during the inspection.

Your renewal permit is in the process of being drafted. If you have any additional information to add please get it to me as soon as possible. Also, as we discussed regarding dissolved oxygen even though dissolved oxygen was not included in the discharge monitoring report forms sent to you at the beginning of your last permit, it must still be monitored. You need to sample for dissolved oxygen and enter the data on a cover page when submitting your DMR.

If you have any questions please let me know (801) 538-6058.

Sincerely,

Michael D. Herkimer, Environmental Scientist  
Permits & Compliance Section
