Subject: 2nd Quarter Water Monitoring

I looked over the data entered by Eric Petersen for the 2nd Quarter Monitoring. I also talked to Ken Wyatt. It was my first time in the database. Works great. Ken asked me to e-mail that I approved putting this data "permanently" into the computer. He already knows but wants it in writing, which is ok.

Also Bill Malencik called about doing the midterm review. We set some possible dates and went over the items listed in your letter. Monday I sent you the clean copies of the DO, which was the only thing outstanding. I am working on a permit change on the siltfence/strawbale controls on the topsoil piles. Pat Collins looked at the topsoil piles last week. Everything else should go ok. I hope! Famous last words. Have a good weekend.

Gary
