Re: Midterm Review, Genwal Resources Inc., Crandall Canyon Mine, C/015/032-MT00-1 *Outgoing File*

Dear Mr. Gray:

The above referenced amendment (received on April 27, 2001) has been given a preliminary review. It was immediately apparent that the deficiencies identified in the previous Technical Analysis (sent on March 27, 2001) have not been addressed.

We believe it's counter productive to go through another round review only to provide you with a Technical Analysis that enumerates the same deficiencies as were previously identified. Therefore, we are returning your submittal with the expectation that you will review the TA and fully address the deficiencies described therein. Then please provide us with a complete submittal for our review.

In order for us to continue to process your application, please respond to the deficiencies by May 25, 2001.

If you have any questions, please call me at (801) 538-5325 or Mike Suflita at (801) 538-5259.

Sincerely,

Daron R. Haddock
Permit Supervisor
