Re: Five-Year Permit Renewal, Genwal Resources, Inc. Crandall Canyon Mine, C/015/032-RN03, Outgoing File

Gary
Dear Mr. Gray:

The permit renewal for the Crandall Canyon Mine is approved with two conditions. The Division acknowledges that pursuant to R645-300-154, the original permit issued by the Division and subsequent renewals carries with it the right of successive renewal within the approved boundaries of the existing permit in accordance with R645-303-230. The Decision Document is enclosed for your information.

Enclosed are two (2) copies of the renewed permanent program mining and reclamation permit for the Crandall Canyon Mine. Please read the permit to be sure you understand the requirements of the permit and conditions, then have both copies signed by the authorized official of Genwal Resources, Inc. and return one to the Division.

If you have any questions, please call me.

Sincerely,

Lowell
Lowell P. Braxton
Director

ADMINISTRATIVE OVERVIEW

Genwal Resources, Inc.
Crandall Canyon Mine
Five Year Permit Renewal
C/015/032
Emery County, Utah

May 13, 2003

BACKGROUND:

Crandall Canyon Mine is a mine permitted by Genwal Resources, Inc. located in the Huntington Canyon area. Mining was previously room and pillar and converted to longwall mining in 1996.

PERMIT RENEWAL:

Genwal Resources, Inc. made application to the Division of Oil Gas and Mining for a five year permit renewal for the Crandall Canyon Mine on April 11, 2003. Hindrance violation N03- was issued on April 15, 2003 because the renewal was not submitted within 120 days prior to the renewal date and terminated the same date. This renewal encompasses the same permit area and disturbance as currently approved in the permit issued September 28, 1999.

The Mining and Reclamation Plan (MRP) for the Crandall Canyon Mine was originally approved by the Division of Oil, Gas and Mining (DOG M) and the Office of Surface Mining Reclamation and Enforcement (OSMRE) on November 8, 1982. This permit was renewed on June 14, 1989 and a revised permit issued subsequently on July 27, 1989. The second revised permit was issued on August 8, 1990 and a subsequent revised permit issued on April 22, 1991. This permit was renewed on May 13, 1993.

A federal lease was added, known as LBA #9, and approved on November 3, 1994. This mining and reclamation permit was transferred from Genwal Coal to Genwal Resources, Inc. on March 23, 1995. A culvert installation was approved on June 27, 1997 and a subsequent stockpile and sediment pond associated with the culvert installation approved on July 30, 1997 and another revised permit issued. A 50-acre incidental boundary change was approved on September 30, 1999.

The application for permit renewal was submitted on April 11, 2003 and determined administratively complete that same date. A hindrance violation was issued on April 15, 2003 because the renewal application was not submitted 120 days prior to the renewal date. Public notice for this permit renewal was published in the Sun Advocate on April 15, 17, 22, 24, 29, May 1, 6 and 8, 2003. It was also published in the Emery County Progress on April 17, 24, May 1 and May 8, 2003.

The 30-day public comment period will end on June 7, 2003. A condition has been added to the permit that Genwal Resources, Inc. must comply with all of the requirements of R645-300-122 if there are comments or objections to the permit.

ANALYSIS:

The permit renewal application was not received at least 120 days prior to permit renewal and a hindrance violation was written. Submittal of the application was the abatement. The Division acknowledges that pursuant to R645-300-154, the original permit issued by the Division and subsequently renewed carries with it the right of successive renewal within the approved boundaries of the existing permit in accordance with R645-303-230.

RECOMMENDATION:

Approval for this permit renewal is recommended conditioned as follows: 1) Genwal Resources, Inc. will submit water quality data for the Genwal Mine in an electronic format through the Electronic Data Input web site, <http://hlunix.hl.state.ut.us/cgi-bin/appx-ogm.cgi>. and 2) All comments received during the permit renewal comment period for the Genwal Mine (which ends June 7, 2003) will be processed according to the requirements of R645-300-122. Genwal Resources, Inc. must comply, as needed, with any comments or objections to the permit renewal.

This legal description is for the permit area of the Crandall Canyon Mine. The permittee is authorized to conduct coal mining and reclamation operations on the foregoing described property subject to the conditions of the leases, the approved mining plan, including all conditions and all other applicable conditions, laws and regulations.

Sec. 3 COMPLIANCE - The permittee will comply with the terms and conditions of the permit, all applicable performance standards and requirements of the State Program.

- Sec. 4 PERMIT TERM** - This permit becomes effective on May 13, 2003 and expires on May 13, 2008.
- Sec. 5 ASSIGNMENT OF PERMIT RIGHTS** - The permit rights may not be transferred, assigned or sold without the approval of the Director, DOGM. Transfer, assignment or sale of permit rights must be done in accordance with applicable regulations, including but not limited to 30 CFR 740.13(e) and R645-303.
- Sec. 6 RIGHT OF ENTRY** - The permittee shall allow the authorized representative of the DOGM, including but not limited to inspectors, and representatives of OSMRE, without advance notice or a search warrant, upon presentation of appropriate credentials, and without delay to:
- (a) Have the rights of entry provided for in 30 CFR 840.12, R645-400-110, 30 CFR 842.13 and R645-400-220; and,
 - (b) Be accompanied by private persons for the purpose of conducting an inspection in accordance with R645-400-100, R645-400-200 and 30 CFR 842, when the inspection is in response to an alleged violation reported by the private person.
- Sec. 7 SCOPE OF OPERATIONS** - The permittee shall conduct coal mining and reclamation operations only on those lands specifically designated as within the permit area on the maps submitted in the mining and reclamation plan and permit application and approved for the term of the permit and which are subject to the performance bond.
- Sec. 8 ENVIRONMENTAL IMPACTS** - The permittee shall minimize any adverse impact to the environment or public health and safety through but not limited to:
- (a) Accelerated monitoring to determine the nature and extent of noncompliance and the results of the noncompliance;
 - (b) Immediate implementation of measures necessary to comply; and
 - (c) Warning, as soon as possible after learning of such noncompliance, any person whose health and safety is in imminent danger due to the noncompliance.
- Sec. 9 DISPOSAL OF POLLUTANTS** - The permittee shall dispose of solids, sludge, filter backwash or pollutants in the course of treatment or control of waters or emissions to the air in the manner required by the approved Utah State Program and the Federal Lands Program which prevents violation of any applicable state or federal law.

Sec. 10 CONDUCT OF OPERATIONS - The permittee shall conduct its operations:

- (a) In accordance with the terms of the permit to prevent significant, imminent environmental harm to the health and safety of the public; and
- (b) Utilizing methods specified as conditions of the permit by DOGM in approving alternative methods of compliance with the performance standards of the Act, the approved Utah State Program and the Federal Lands Program.

Sec. 11 EXISTING STRUCTURES - As applicable, the permittee will comply with R645-301 and R645-302 for compliance, modification, or abandonment of existing structures.

Sec. 12 RECLAMATION FEE PAYMENTS - The operator shall pay all reclamation fees required by 30 CFR Part 870 for coal produced under the permit, for sale, transfer or use.

Sec. 13 AUTHORIZED AGENT - The permittee shall provide the names, addresses and telephone numbers of persons responsible for operations under the permit to whom notices and orders are to be delivered.

Sec. 14 COMPLIANCE WITH OTHER LAWS - The permittee shall comply with the provisions of the Water Pollution Control Act (33 USC 1151 et seq.) and the Clean Air Act (42 USC 7401 et seq), UCA 26-11-1 et seq, and UCA 26-13-1 et seq.

Sec. 15 PERMIT RENEWAL - Upon expiration, this permit may be renewed for areas within the boundaries of the existing permit in accordance with the Act, the approved Utah State Program and the Federal Lands Program.

Sec. 16 CULTURAL RESOURCES - If during the course of mining operations, previously unidentified cultural resources are discovered, the permittee shall ensure that the site(s) is not disturbed and shall notify DOGM. DOGM, after coordination with OSMRE, shall inform the permittee of necessary actions required. The permittee shall implement the mitigation measures required by DOGM within the time frame specified by DOGM.

Sec. 17 APPEALS - The permittee shall have the right to appeal as provided for under R645-300.

Sec. 18 SPECIAL CONDITIONS - There are special conditions associated with this permitting action as described in Attachment A.

The above conditions (Secs. 1-18) are also imposed upon the permittee's agents and employees. The failure or refusal of any of these persons to comply with these conditions shall be deemed a failure of the permittee to comply with the terms of this permit and the lease. The permittee shall require his agents, contractors and subcontractors involved in activities concerning this permit to include these conditions in the contracts between and among them.

These conditions may be revised or amended, in writing, by the mutual consent of DOGM and the permittee at any time to adjust to changed conditions or to correct an oversight. DOGM may amend these conditions at any time without the consent of the permittee in order to make them consistent with any new federal or state statutes and any new regulations.

Re: Compliance Review for Section 510 (c) Findings – Permit Renewal, Crandall Canyon Mine, Genwal Resources, Inc., C/015/032

As of the writing of this memo, there are no NOVS or COs which are not corrected or in the process of being corrected. There are no finalized Civil Penalties, which are outstanding and overdue in the name of Genwal Resources, Inc. Genwal Resources, Inc. does not have a demonstrated pattern of willful violations, nor have they been subject to any bond forfeitures for any operation in the state of Utah.

The recommendation from the Applicant Violator System (AVS) dated May 9, 2003 denotes that all connected entities either do not have any civil penalties or are under a settlement agreement (attached).
