Commission holds first meeting of the year

TSY STODDARD, Editor

The Emery County Commissioners met in their first meeting of the year. The first two items on the agenda were due to the absence of Commissioner Gary Kofford who is out of town. The items were the election of a man and outlining the commissioners' responsibilities for the year. Mark Bruce Funk was on hand to bid for the road department trucks for road department equipment. Seven bids were received from the following companies: J&D Automobile, BookCliff Sales, Kenworth Sales, Isuzu 4x4, Wheeler, Rhinehart Oil, and City Trucks Inc. Commissioner Ira Hatch said he will get together with Rex Funk, road

Bomb threat at Genwal Mine

Emery County Sheriff Lamar Guymon said that at approximately 1:30 p.m. on Jan. 5, the Emery County Sheriff's Office dispatcher Jeff Cowley received a call from Jim Pruitt, the Safety Manager at Genwal Coal Mine located approximately 25 miles west of Huntington in Huntington Canyon. Pruitt informed Deputy Cowley that he had received a bomb threat at the coal mine.

The caller, a male voice, informed him that there was a bomb in the mine that was set to go off today. At this point sheriff's deputies were alerted and sent to the scene. Detective Sgt. Bob Blackburn, Sgt. Norm Vuksinick, Patrol Sgt. Jeff Thomas and Homeland

Security Sgt. Martin Wilson, along with other sheriff's deputies secured the mine and the area leading to the coal mine.

The investigation proceeded and all the miners were evacuated from the mine and the surrounding area. All the coal trucks that are normally on the property transporting coal from the mine were also evacuated. The coal mine has been secured. The investigation is continuing. There is a \$10,000 reward that has been offered for the arrest and conviction of the person or persons responsible for the bomb threat to the coal company. The crime is very serious in nature and if arrests are made the responsible parties will

be prosecuted to the fullest extent of the law.

The coal company and local law enforcement take these incidents very seriously because of the potential for the number of lives that could be affected if a bomb were detonated underground in the coal mine. Not only would it be disastrous for the loss of lives, it is also very expensive to the coal company and those that work there. The sheriff's office is asking for the public's help in the investigation to find the person or persons responsible for the bomb threat. Any information can be given to the coal company or to the sheriff's office at 381-2404.

skipped out on \$1,000 in gas. The sergeant located the vehicle and find it. A description of the vehicle was given to the dispatch and they located the vehicle. The vehicle was found and the Richfield police suspects had stolen gas the way. The suspect also had a video camera running in the stolen vehicle which had the license plate of Emery on it.

In another incident, an attempt to locate the vehicle was put on the Emery County dispatch. The stolen 1997 Ford pickup truck was located in Sanpete County. The vehicle contained stolen firearms. The sergeant said he had seen a vehicle matching that description traveling across the Moon Valley about 30 minutes earlier. A deputy spotted the vehicle and the Maverik getting ready to stop. The deputy contacted dispatch and confirmed that the vehicle was the stolen vehicle. The deputy activated his sirens as the stolen vehicle proceeded west on Main Street in Dale. The truck then turned north on 200 East and the deputy activated his sirens. The vehicle turned west on North. The vehicle finally stopped over at about 100 East on North. The driver exited the vehicle and approached the deputy.

The deputy instructed the driver to stop and keep his hands where the deputy could see them. The driver asked why.
