Subject: Conditional Approval of Upgrade to the Forest Service Trailhead, Genwal Resources, Inc., Crandall Canyon Mine, C/015/0032, Task ID #2245, Outgoing File

Dear Mr. Gray:

The Division received an application to allow employee parking in the Forest Service (USFS) trailhead at the Genwal Mine on May 11, 2005. The application was assigned Task ID #2245 for review and processing purposes.

The application requires the addition of 0.01 acres of disturbance that lies within the existing permit boundary. This additional disturbance will require the removal and protection of topsoil and subsoil.

The application requests the addition of Appendix 5-26 to the approved Mining and Reclamation Plan (MRP). This appendix contains a letter to the USFS requesting that the special use permit be modified to allow mine employee parking within the USFS trailhead parking area, a copy of the existing special use permit with the USFS, and a map that shows the trailhead area with the addition of mine employee parking.

The Division received a letter dated May 24, 2005 from Alice B. Carlton, Forest Supervisor for the USFS. The letter indicates that the USFS staff has reviewed and approved the application from Genwal Resources to modify the USFS trailhead parking area.

The above-referenced amendment is conditionally approved upon receipt of seven clean copies prepared for incorporation. Please submit these copies by July 25, 2005. Once we receive these copies, final approval will be granted, at which time you may proceed with your plans.

A stamped incorporated copy of the approved plans will also be returned to you at that time, for insertion into your copy of the Mining and Reclamation Plan. A CD of our Technical Analysis is enclosed.

If you have any questions, please call me at (801) 538-5268 or Karl R. Houskeeper at (435) 613-1146 Ext. 201.

Sincerely,

Pamela Grubaugh-Littig
Permit Supervisor
