Okay - extended to 10/14/2005.

Dave Shaver asked me to request an extension to the response date for the above. He and Steve Fluke have been in conversation about the changes required in the text of the permit. However the changes are considerable and can't be completed by this Friday. No date was given to me by Dave, but given the circumstances, an additional week until next Friday October 14 would probably be suitable for you and for Dave.

Thank you for your consideration and patience.
