Hi Pam,

I have finished the package. I sent an email to KY asking them to either make the updates or to allow me to make them. KY responded with a question. They wanted to know if the company had sent the changes to them?

Kenamerican Resources Inc is the KY company. Please ask Murray to submit the changes for that company directly to KY.

I have very few questions for the company this time.

1. The Ohio Valley Transloading Co and Wyamerican Energy Inc are not in AVS. Should I create them? I think last time they said they should not be in, but they submitted them again...

2. Ohio Valley Resources Inc. It says VACANT but gives a begin and end date. I believe that it should be the begin and end date for Michael B Gardner. Will you ask the company about that?

Other than that all changes have been made.

Linda Keene
