Subject: RE: archaeological report

Priscilla...John Senulis (Senco-Phenix) worked directly with Kenny Wintch of SITLA on this. He did the field work, but has not written the report yet. The bottom line is nothing was disturbed, and that was communicated to SITLA. John said that preparing the report is not a high priority, based on discussions with SITLA, so it probably won't be finalized until later this winter. In the meantime, feel free to call John directly (613-9091) if you have any questions.

Dave

Subject: archaeological report

Dave,
Please provide the Division with the Senco Phoenix arch. report conducted at the request of SITLA on October 4, 2007, when it becomes available.
Thanks,
Priscilla
