Table of Contents
Volume 5
Crandall Canyon Mine, Mine and Reclamation Plan

Appendices

<u>Appendix Number</u>	<u>Description</u>
7-18	Seep and Spring Specific Conductivity Measurements
7-19	Seep and Spring PH Measurements
7-20	Seep and Spring Field Water-Quality Summary
7-21	Underground Water Budget - January 15, 1991
7-22	Underground Sump Design - Lease ML-21569
7-23	Blind Creek, Crandall Creek, and Horse Creek Flow Calculations
7-24	Slug and Bail Test Results
7-25	USFS Intermountain Research Station Proposal
7-26	Research & Mining Time Table
7-27	Manti LaSal National Forest Soil Data
7-28	Soil Erodibility Calculations
7-29	Pre- & Post-Mining Composite Land Type Percent Slope Calculations
7-30	Manti LaSal National Forest Vegetation Data
7-31	Percent Ground & Crown Cover Calculations
7-32	Pre-mining Soil Loss Nomographs
7-33	Post-mining Soil Loss Nomographs
7-34	Manti LaSal National Forest Land Types
7-35	Calculations of Runoff Curve Numbers for the Composite Land Types
7-36	Calculations of Stream Channel Density
7-37	Pre- & Post-mining SEDROUT Outputs

- 7-38 Blind Canyon Channel Erosion & Cumulative Drainage
Erosion
- 7-39 Erosion Calculation Methodology, Blind Canyon Watershed
- 7-40 Terratek Subsidence Study
- 7-41 Implication for Self-Healing of Fractures
