Hi Erik,

Sorry for the delay responding to the EDI upload. Karla Knoop was wondering the exact same thing the other day. We are all learning together. I have been busy and didn't get to all the uploads until Friday. Normally, I will try to upload within a day of receiving your notice, so you were right to wonder what happened. I did a quick scan and it looks like you did everything right. Here is the standard upload announcement.....

I have uploaded all of the information from the pipeline into the permanent database. A report is attached.

It seems like you have included all required samples and parameters for the quarter of. As the assigned hydrologist for the mine, I will verify that all the required data is present by the end of the second week of the next quarter (April 13). You may want to verify for yourself first to avoid having delinquent data. If you do not know how to check the data in the database, please let me know and I can send you instructions.

Thank you,

Steve Fluke
Senior Reclamation Hydrologist

Hi Pam,

How are things in the Big City?

I am e-mailing you to follow up on the Crandall Canyon Mine EDI for the 4th quarter 2006 water monitoring. I have been authorized by the mine to officially submit the EDI information to DOGM and I sent an e-mail indicating that it was ready to upload a few weeks ago. I just want to make sure that I have followed all the correct steps and haven't neglected to do anything, as I am kind of a novice at this thing.

Thanks for your help,

Erik
