#7 holed at 4:20 this am. Very little void. Not sure about #8 but it would be drilled from #6 pad.

Subject: Drill Hole #7

Hi Jay -

I was wondering if Dave Shaver and I could get an update on drill hole #7? Have we broken through yet? If so, what kind of void did we find? Dave needs to talk to the government agencies and I'm just nosy. :)

Also, do we know if there will be any other drill holes yet? MSHA was quoted on the news saying that we are doing more holes. If so, we need to let the government agencies know.

Thanks,
