September 20, 2007

Ms. Sandra Gallardo
Senate HELP Committee
Oversight and Investigations Office
644 Dirksen Senate Office Building
Washington, D.C. 20510

Dear Ms. Gallardo:

This letter, and the designated file transfer protocol (FTP) site, to which you and Nick Bath are being provided access by the Division of Oil, Gas and Mining, is in response to your September 17, 2007 Document Request from the U.S. Senate HELP Committee which came from Senators Kennedy and Murray. The FTP site currently includes the Crandall Canyon Mine Mining and Reclamation Plan (MRP), and the Incoming, Outgoing and Internal correspondence, including E-mails. It does not include any files that are required under our rules to be kept confidential, such as archeological site location and raptor nest location data.

As we discussed, we will be adding to the FTP site as we get more mine plan records scanned in, such as the pre-2000 files for the mine and anything current that has not been scanned into the system. The FTP site should fulfill the extent of your request, particularly Items #1, 2, 4, 5, 7, 12, 13, 14, 17, 18, 19, 20, 21, 22, 23, 24, 25, and 27. All other numbered items not listed here are documents that would be in the jurisdiction of another agency such as Bureau of Land Management, Mine Safety Health Administration, or the Utah State Institutional Trust Lands.

If you have questions, you can contact me at (801) 538-5306, or Randy Harden at (801)-538-5285 or via email.

Sincerely,

Mary Ann Wright
Associate Director, Mining
