Subject: Crandall Canyon Road Reclamation - SITLA letter needed

CC: dshaver@coalsource.com; Mary Ann Wright; Priscilla Burton; Tom Lloyd
Tom - we need to get a letter from SITLA (the land managing agency) that SITLA takes responsibility for the maintenance and final reclamation of the East Mountain access road (just the SITLA portion).

Currently, a small portion of this road has been reclaimed (1/10 of a mile) but it was realigned on the other side of the nob to keep access open. According to SITLA field personnel, the realigned portion and the length of the East Mountain saddle will not be reclaimed and is to become permanent.

As the lead agency, we need to have a letter from SITLA stating that SITLA takes responsibility for this road.

Let's discuss.

Thank you.

Pam
