Subject: Mining Plan Determination - Crandall Canyon
Attachments: Crandall.rp.doc

Attached is OSM's final decision regarding the need for a Mining Plan Modification for the above subject. A signed copy will be sent to you in today's mail.

In accordance with the Federal regulations under 30 CFR 740.13(d), other Federal agencies that may have an interest in, or jurisdiction over, the above subject operation have also been notified of OSM's decision electronically.

No responses to this transmittal are necessary.

RE: Genwal Resources, Inc. "Crandall Canyon" Mine - Application for a Permit Revision,
Addendum to Reclamation Plan, Task ID No. 2970

Dear Sir or Madam:

This is in response to the Utah Division of Oil, Gas & Mining's (UT-DOG M) May 13, 2008, request for a decision, under 30 CFR 944.30, whether the above subject permit revision constitutes a mining plan modification.

Mining plan approvals by the Secretary of the Interior are required under the Mineral Leasing Act of 1920, 30 U.S.C. 181, *et seq.* before coal mining can occur on Federal lands. This letter serves to document OSM's determination whether or not a mining plan approval from the Secretary is required for the above permitting action.

OSM's review of the Application for a Permit Revision, Addendum to Reclamation Plan, has determined that it proposes to revise the reclamation plan for the East Mountain Emergency Drillpad for the Crandall Canyon mine, Utah State permit C/015/0032 to address deficiencies found during the review of the original permit revision application.

Based on a review of the activities associated with the permit revision, OSM has determined that the proposal does not meet the requirements of 30 CFR PART 740 and PART 746. Therefore, the proposed permit revision does not constitute a mining plan action requiring Secretarial approval.

OSM's decision was based solely upon the Federal regulations under 30 CFR PART 746 and not the technical aspects of the revision application itself. Consequently, OSM's decision does not relieve UT-DOG M from coordinating the review and approval of the Application for a Permit Revision, Addendum to Reclamation Plan, with other Federal agencies for compliance with other Federal regulations.

OSM also electronically transmitted the May 13, 2008, request to the Bureau of Land Management and the USDA Forest Service for their review and comment.

Neither agency provided any comments in the thirty day time frame established by the Federal regulations under 30 CFR 944.30, Article VI. D.

Please notify the applicant of our decision on this matter.

Should you have any questions regarding this letter or approval, please contact Carl R. Johnston, Utah Federal Lands coordinator, at (303) 293-5038.

Sincerely,

Foster E. Kirby
