Subject: Re: Crandall Canyon discharge

CC: Karl Houskeeper; Steve Demczak

Jim Kohler just called to advise the Division of this situation, too. He said that there are no seals, there are "temporary block walls". These temporary block walls were installed in October 2007 and BLM approved them as part of the R2P2. Steve Rigby is going to the mine site today to investigate.

fyi.

>>> Daron Haddock 1/11/2008 11:37 AM >>>

Karl, Steve and Dave just called and let me know that Captain Ecker of the Emery County Sheriffs office has been notified of the discharge concern. Also Dave contacted a Mr. Davis with MSHA in Denver and Steve talked to the local MSHA person (Bill) to let them know of the situation. They plan to head up to the mine site now. -FYI
